

Engine Sounds 4.0 for iOS, now a Universal App

Published on 11/01/12

Alabama based Semvhu announces Engine Sounds 4.0, an update to its fun entertainment application developed for iPhone, iPad and iPod touch devices. Developed for anyone that loves the sound of cars, Engine Sounds includes everything from 4 cylinders to 12 cylinders to rockets, ready to roar at the touch of a button. There are 37 original sounds plus 11 interactive sounds for 48 sounds in all. Version 4.0 has been upgraded significantly with better graphics and smoother user interaction.

Vinemont, Alabama - Semvhu, the creator of many popular iOS apps, has updated its iOS app "Engine Sounds" with significant improvements in version 4.0. The interface has been upgraded significantly with better graphics and smoother user interaction. Most importantly, the app is now a Universal app, meaning it works natively on iPhone, iPod touch, and now iPad. The app is for sale now on the Apple app store.

Engine Sounds is an application is for anyone that loves the sound of cars. Engine Sounds includes everything from 4 cylinders to 12 cylinders to rockets, ready to roar at the touch of a button. Use it for all types of entertainment purposes. There are 37 original sounds plus 11 interactive sounds for 48 sounds in all.

The interactive mode of Engine Sounds is akin to pressing the gas in a car. The mode uses the i-Device's built-in accelerometers to control the pitch and volume of the car sounds to simulate a real car.

Device Requirements:

- * iPhone 3GS, iPhone 4, iPhone 4S, iPhone 5, iPod touch and iPad
- * Requires iOS 5.0 or later
- * Universal Application
- * 34.2 MB

Pricing and Availability:
