

## **Ilaro Research Note Management App Released for iOS**

Published on 11/05/12

California based twenty.two o.nine squared, llc today introduces Ilaro 1.0, its new productivity app for iPhone and iPad. Ilaro brings research project management, note taking, timeline management, and subject tracking to mobile computing. The app offers powerful features to help researchers track, organize, and simplify their research. Ilaro provides special cards to help you observe the relationships between notes, topics, and sources.

Seaside, California - twenty.two o.nine squared, llc, developer of applications for iOS, today announced the release of Ilaro for iPhone and iPad. Ilaro brings research project management, note taking, timeline management, and subject tracking to mobile computing. With iOS devices increasingly becoming a part of every day life, researchers of all types, from middle and high schools to colleges and universities, require flexibility and mobility in research tools that enhance their productivity.

Ilaro offers powerful features to help researchers track, organize, and simplify their research. Ilaro provides special cards to help you observe the relationships between notes, topics, and sources. The features include:

### **Related Subject Tracking:**

Users can monitor and discover relationships between authors, sources, and subjects. Ilaro tracks how users tag their notes and even presents subject relationships on a per project basis.

### **Custom Subjects:**

Ilaro doesn't care what type of research users engage in. Users can create customized card categories to organize their research subjects and tailor Ilaro toward their research needs.

### **Efficient Note Filtering:**

View cards by related subjects or simply view cards from selected categories. Users can save selections in Smart Filters and use more powerful options for breaking down your research.

### **Timelines:**

Explore your notes, authors, sources, and subjects on a visual timeline. Whether it is historical research, literature, or genealogy, Ilaro provides tools to help users make sense of their work. Events can be grouped into specialized timelines so users can focus on the events that matter most to them. Even in timeline mode, Ilaro provides subject and note filtering tools.

### **User Friendly:**

Both Ilaro and the Ilaro team work to provide an intuitive, yet beautiful way to take notes and manage research.

### **Projects:**

Reduce clutter by organizing your research by project. Note cards can be used across multiple projects, reducing redundancy in note taking and simplifying research management.

### **Device Requirements:**

- \* iPhone 3GS, iPhone 4, iPhone 4S, iPhone 5, iPod touch and iPad
- \* Requires iOS 6.0 or later
- \* 23.3 MB

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

**Pricing and Availability:**

Ilaro 1.0 is \$9.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Productivity category.
