Secret of the Lost Cavern plunges the player into an inspiring adventure that takes place during the Paleolithic period in prehistoric time, 15,000 years B.C. Contend with the wild world where fishing, hunting, gathering, and mysterious shaman ceremonies are all part of the struggle for survival as you follow the path of your mentor and work with him to recreate the paintings of the renowned Lascaux Cave.

Destination: Treasure Island:

Four years have passed since the end of the adventure recounted in Robert Louis Stevenson's novel. Jim Hawkins has become an upstanding adventurous young man, attentive to those around him. Imagine his surprise when, one morning, he sees a parrot enter his bedroom window: none other than Captain Flint, Long John's own companion. The bird brings him a message from his master. In the message the old pirate announces that he has buried a marvelous treasure on the secret isle where he retired: Emerald Island. Jim is going to have to hurry though. Pirates, old enemies of Long John, are on his trail.
