Teach Communication Skills with Speech Cards

Published on 11/13/12

RWH Technology is pleased to announce that Speech Cards Lite is now available for the iPad on the App Store. Speech Cards 1.0.2 is a flashcards app for improving the speech and language skills of people of all ages. Use this customizable app to teach categories, articulation, vocabulary, sight words and more. The developer provides a Lite version so that users may try some of the features before upgrading to the full, Professional version.

San Diego, California - Speech Cards is a flashcards app for improving the speech and language skills of people of all ages. RWH Technology is pleased to announce that Speech Cards Lite is available for the iPad on the App Store. The developer provides a Lite version so that you may try some of the features before upgrading to the full, Professional version.

Every individual/group has a unique set of goals for improving their communication skills, and therefore require a different set of learning materials. "Speech Cards allows the creation of different flashcards that meet the needs of your students", says Tiffany Harrison, speech language pathologist and co-designer of Speech Cards. "You can customize Speech Cards to teach categories, articulation, vocabulary, sight words, first words, social stories, encourage use of spoken language/communication skills, and much more."

App Features:
* Customizable text, pictures and audio
* Microphone to record your student speaking
* Integrated scoring and reporting system to track the progress of your students
* Share cards with your friends and colleagues

Speech Cards Lite comes pre-loaded with 10 cards of animals, is limited to 2 decks of cards and support for 1 student. The full, Speech Cards Professional version, includes 4 decks (40 cards), supports up to 24 decks of cards and can track scores for up to 12 students.

Device Requirements:
* Compatible with iPad
* Requires iOS 5.0 or later
* 5.1 MB

Pricing and Availability:
Speech Cards Lite 1.0.2 is available for free worldwide exclusively through the App Store in the Education category. An in-app-purchase is available for $4.99 USD (or equivalent in other currencies) to upgrade to the features of the Professional version.
