1Tapps today introduces 1TapGuard - The Angry Dog 1.0, their new Security app that enables single touch device surveillance on any iOS device. 1TapGuard provides the first line of defense by blaring out a dog bark that will startle the robber, alert you of the thief's presence, attract the attention of everyone nearby, and force the thug to abandon the heist. Configure your device with system's passcode lock, tap 1TapGuard and press the device power/lock, that's it.
