

Before Dawn Solutions acquires Code Collector Pro and CodeCollector.net

Published on 11/19/12

M Cubed Software and Before Dawn Solutions, Inc. would like to announce the acquisition of Code Collector, Code Collector Pro, and CodeCollector.net by Before Dawn Solutions, Inc. effective immediately. Code Collector is a snippet manager that makes it easy to organize, share, use, and collect snippets. The Code Collector Applications and website will be useful add-ons for our existing applications, additionally CodeCollector.net will take code sharing and discovery to the next level.

Highlands Ranch, Colorado - M Cubed Software (Martin Pilkington) and Before Dawn Solutions, Inc. would like to announce the acquisition of Code Collector, Code Collector Pro, and CodeCollector.net by Before Dawn Solutions, Inc. effective immediately. The Code Collector Applications and website will be useful add-ons for our existing applications, additionally CodeCollector.net will take code sharing and discovery to the next level.

"We are very excited to add Code Collector and CodeCollector.net to our application offerings and look forward to integrating it with our existing tools", says John Martyniak, President/CEO, Before Dawn Solutions, Inc.

"Developing Code Collector Pro has been an amazing experience. I am confident that Before Dawn Solutions will be a great home for Code Collector Pro and CodeCollector.net and look forward to seeing what they build.", said Martin Pilkington.

All current paid users of the Code Collector Pro application will receive a free upgrade to the new Code Collector Pro (v1.5.5) which is available now from the website, or by downloading it from Mac Update. A new Mac App Store version of Code Collector Pro will be available shortly.

Code Collector is a snippet manager that makes it easy to organize, share, use, and collect snippets. When you spend all day writing code, you need a tool that lets you easily find, discover and use those frequently written pieces of code. It is also a great place to store code snippets that you spent all day trying to find on Google.

Main Features:

- * Groups and smart groups for collecting snippets
- * Fully customisable syntax colouring
- * Tag snippets for easier searching
- * Add description and source information for snippets
- * Create new snippets from selected text in any app
- * Drag files to your library to add them as snippets
- * Insert snippets into your favorite editor with just a few keystrokes
- * Import from Coda, Snippet, Snippets & TextExpander
- * Drag & drop snippets to anywhere on your Mac
- * Free account on codecollector.net for public snippets
- * Start sharing with just a few clicks
- * Download snippets to your library with a single click
- * Export snippets to a single, easily sharable file
