

Objective Decision releases Contactizer 3.7.2 - Project Management

Published on 04/12/09

Objective Decision today announces the release of Contactizer 3.7.2, an update to their popular CRM application for Mac OS X. With this release, Contactizer improves its compatibility with the upcoming Snow Leopard. Version 3.7.2 offers a new standalone companion, Dayboard, that allows you to view at-a-glance tasks, events and birthdays when Contactizer is closed. Contactizer 3.7.2 delivers a dozen of issue fixes or enhanced features and is highly recommended for all Contactizer users.

Miami, Florida - Objective Decision the makers of the contact / project management software Contactizer, today announced the latest release of its software version 3.7.2. With this release, Contactizer mainly improves its compatibility with the upcoming Apple OS, Snow Leopard Mac OS X 10.6. Contactizer 3.7.2 delivers a dozen of issue fixes or enhanced features and is highly recommended for all Contactizer users.

With 20 new exciting features and enhancements, Contactizer Pro 3.7 is the most impressive Contactizer version yet. Contactizer 3.7 offers a new standalone companion -Dayboard- that allows you to view at a glance tasks, events and birthdays when Contactizer is closed. Contactizer sports also the ability to define custom type for events and tasks, a QuickLook preview for the Attachments, a Cover Flow mode (Leopard Only) that shows your contacts in a business card like presentation and many user interface enhancements expanding your productivity.

Contactizer 3.7.2 is available for free as a download to all Contactizer 3 users. Current Contactizer users will discover an improved overall interface, with the possibility to access tasks from the calendar view or the addition of a Merge Key Panel.

Objective Decision also starts shipping Contactizer Express 3.7. This new application is built on the same core as the Pro version. Contactizer is designed for freelancers, small individual businesses and entrepreneurs that need to access contact information, organize and prioritize tasks, and track all projects and resources.

Contactizer Express or Pro 3.7 can be tested for free by downloading the demo version. Contactizer Pro retails for EUR 99 (USD 119); quantity discounts and educational pricing are available. For more information please contact the Objective Decision sales team.
