

Camera Plus Pro is iPhone 5 ready, adds focus lock and low-light support

Published on 11/27/12

Global Delight has announced that Camera Plus Pro, a must-have photo capture and editing app for all iPhone-touting photography buffs, is now iPhone 5 and iPod touch 5th generation compatible with iOS 6 support to give you the best shooting experience now on the 4-inch display as well. The updated version also includes Focus Lock integration and low-light support. Now go snapping some great photos with your hot new devices.

New Udupi, India - Global Delight, creators of essential Mac and iOS apps that maximize your photo, video and audio experiences, today announced the release of the much awaited Camera Plus Pro v4.5 update with iPhone 5, iPhone 5th generation and iOS 6 support. This means you can now extend your photography skills to the new and big 4-inch display.

The exciting new update also includes focus lock integration. So now you have focus lock, exposure control and white balance independent of one another to adjust and snap great photos with more detail and clarity. It doesn't stop here. The new version 4.5 has extended low-light shooting (ISO 3200) which enables you to take photos on your iPhone 5. New interfaces being designed for the iPhone 5 and iPod touch 5 camera and other screens, refinements have also been made to help bring you a better overall user experience by improving the workflow.

A bunch of other details have also been polished-up in the app:

- * Faster uploading of photo and video to Twitter and Facebook
- * Interface refinements and performance improvements for iPhone 4S, 4 and 3GS devices running iOS 6
- * Front-facing camera capture fixes
- * New authentication methods for YouTube and Picasa for faster uploading
- * Option to email the Private Collection password

The new version aims at providing you the best shooting experience, bar none, and Global Delight hopes it has delivered just that.

Camera Plus Pro is the photo and video app for the iPhone and iPod touch with unmatched functionality. The app boasts of some unique features like full resolution live filters for both photos and videos, smooth video-zoom, wireless transfer of photos and videos to desktops, an amazing collection of photo filters, custom tagging, private collection of photos and videos, and instant sharing on Facebook, Twitter and YouTube.
