Olearis today announces porTable 1.1 an update to its physical simulation of tabletop games for iOS. porTable is a game that allows users play tabletop games using the iPad as a table and other iOS devices as a handheld cards or dominoes. Realistic physics, handy gestures and smooth UI make it the number one tool for having fun with friends and family. Version 1.1 introduces poker chips, dual decks of cards, and extended card deck setup as well as the ability to play with two decks of cards.

Kharkov, Ukraine - Olearis today is pleased to announce the release of porTable 1.1 with poker chips, dual decks of cards, and extended card deck setup. porTable is a real-life simulation of tabletop games that use cards, chips or dominoes. It has no prescribed rules and gives players full control over their game process. porTable 1.1 now lets gamers play nearly any style card game including Poker and Canasta.

Chips are stored in the Dealer Tray on the main iPad table, allowing players to take as many chips as needed. Chips can be teleported and placed into players' personal banks on their hand-held device, and players can exchange different denominations of chips automatically.

Main Poker Chip features:

- * Customizable chip sets
- * Convenient exchange on player side
- * Dealer tray
- * Various styles
- * Gestures for collecting and breaking the stack, taking, or dropping
- * Teleport chips using WiFi or Bluetooth

Another big improvement is the ability to play with two decks of cards. Now it's possible to play Canasta and a variety of other games that require two decks. Version 1.1 provides a way to turn on and off each card in the deck to satisfy all games rules.

Device Requirements:

- * iPhone, iPad, or iPod touch
- * Requires iOS 5.1 or later
- * Universal app optimized for display on all iOS devices
