

1Passwd 2.4.5 Supports Netscape Navigator 9

Published on 06/10/07

Agile Web Solutions Inc. today announced an upgrade to 1Passwd -- the only password manager with anti-phishing protection and automatic form filling for Mac OS X. With the addition of Netscape Navigator 9 to its list of supported browsers, 1Passwd customers can now freely switch between nine different web browsers without worry. This upgrade is free to all 1Passwd customers.

FOR IMMEDIATE RELEASE

Toronto (Ontario, Canada) - June 10, 2007 - Agile Web Solutions Inc. today announced an upgrade to 1Passwd - the only password manager with anti-phishing protection and automatic form filling for Mac OS X. With the addition of Netscape Navigator 9 to its list of supported browsers, 1Passwd customers can now freely switch between nine different web browsers without worry. This upgrade is free to all 1Passwd customers.

What is 1Passwd?

- * The most widely used password manager for Mac (according to MacUpdate, VersionTracker and iUseThis websites).
- * The only password manager with integrated Anti-Phishing technology.
- * Automatic form filler with support for credit cards and multiple identities.

Freedom to Switch

New version of 1Passwd gives its users more freedom than ever. 1Passwd provides browser extensions to all popular Mac OS X web browsers. With 1Passwd's direct browser integration, users can login with a single click and share this information between all browsers. Since 1Passwd uses the Mac OS X keychain to store all personal information it is kept secure, easy to backup, and instantly available when a single master password is entered.

Improvements

New release of 1Passwd also includes reworked Autosave and Autosubmit features. Autosave is used to make sure that user information is automatically saved to be available in future. Autosubmit helps to further speed up the automatic web site login.

Full list of improvements includes

- NEW Completely new Autosubmit algorithm greatly improves success of submitting forms.
- NEW Completely new Autosave algorithm no longer prompts to save forms that were already saved.
- NEW Support for Netscape Navigator 9.0.
- CHANGED Improved user interface in Save Form and Password Generator windows.
- CHANGED User interface enhancements in 1Passwd application.
- FIXED Improved Save and Restore form in Firefox to support forms fields that have no 'name' attribute.
- FIXED Restore Form will now work on most web sites that use dynamic form field names.
- FIXED Autosubmit now works when using imported forms on page with only one field.
- FIXED Fixed problem with password history not always refreshing.
- FIXED Fixed version displayed on Firefox toolbar.
- FIXED Fixed bug in Send Feedback.
