

unmarked software Celebrates 11 Years With a New Release and a Promotion

Published on 04/14/09

unmarked software celebrates its 11th anniversary with the release of TextSoap 6.2, an update to their award winning text processing utility for Mac OS X. The new release also addresses a number of customer related issues and requests, including BBEdit palette improvements, an additional scripting command, and more. To help celebrate, company is offering a discount promotion for both new purchases and upgrades. The promotion runs through April 25, 2009.

Vancouver, Washington - unmarked software celebrates its 11th anniversary with the release of TextSoap 6.2, an update to their award winning text processing utility for Mac OS X. The help celebrate, company is offering a promotion for new purchases and upgrades. The promotion runs through April 25, 2009.

TextSoap 6.2 adds a new cleaner: "Smarten Quotes in HTML Text". Moving beyond standard smarten quotes, the new cleaner only converts quotes in the text portion of HTML files, leaving quotes within HTML tags unchanged. TextSoap 6.2 includes a new Entourage 2008 Script for better integration with Entourage 2008. Users install the script via the Plugin preferences. It uses a new fully keyboard-driven popup window to help select cleaners.

The new release also addresses a number of customer related issues and requests, including BBEdit palette improvements, an additional scripting command, and more.

The release of TextSoap 6.2 helps mark 11 years of TextSoap text cleaning. "I am pleased that TextSoap 6 maintains the one-click text cleaning approach found in version 1.0, even as it gains powerful new functionality," said Mark Munz, President of unmarked software. Customers can use the coupon code: "HAPPY11" to receive an \$11 discount on full product orders, bringing the starting price point for TextSoap 6 to \$28.95 for a single license.

And existing customers looking to upgrade can use the coupon code: "HAPPY11U" to receive an 11% discount to upgrade orders, with the upgrade price starting at \$22.21. The birthday promotion runs through April 25, 2009.

Supported Languages:

- * US English

System Requirements:

- * Requires Mac OS X v10.5 or later
- * Universal Binary: Works great on both Intel and PowerPC
- * 14 MB hard Drive space

Take total control of text and its style. Whether it is Mail, AppleWorks, BBEdit, or TextEdit, TextSoap provides integration options such as Services Menu support, Shortcut Menu and Application plug-ins. With a single menu selection TextSoap 6 brings unique processing power to users from within their favorite application.
