

Blue Room Software Tax Day Sale - 15% off everything

Published on 04/15/09

Blue Room Software today announces a one-day sale on its BurnToDisc and ImageArchiver products for Aperture and iPhoto in honor of the 2009 tax deadline. Both BurnToDisc for Aperture and BurnToDisc for iPhoto provide a simple way to deliver your final images to a client, share your pictures with friends and family, or make an extra copy of your files for safekeeping. Disc names are automatically generated from user-defined elements such as disc number, image number, export date and project name.

Seminole, Florida - Blue Room Software today announces that all of its products will be available at a 15% savings for the entire day on April 15, 2009. Both BurnToDisc for Aperture and BurnToDisc for iPhoto provide a simple way to deliver your final images to a client, share your pictures with friends and family, or make an extra copy of your files for safekeeping. Disc names are automatically generated from user-defined elements such as disc number, image number, export date and project name.

With BurnToDisc for Aperture, you have even greater control over disc naming and population. An unlimited number of reusable export templates can be configured to generate multiple image sizes, multiple image formats and on-disc folder placement for the images. ImageArchiver makes it easy for both Aperture and iPhoto users to export their digital pictures to MacOS X disk images or platform-independent compressed zip, gzip or bzip2 files.

Minimum System Requirements:

- * MacOS X 10.4 Tiger or later
- * Universal Binary for PowerPC G4, G5 or Intel Macintosh
- * Aperture 1.5 or later / iPhoto '08 or later

Recommended System:

- * MacOS X 10.5 Leopard
- * Aperture 2.0 or later / iPhoto '08 or later

Pricing and Availability

On April 15, 2009, every purchase will receive a 15% discount after applying the coupon code APRIL15 at checkout.
