

MyLyrics - discover music FREE for iOS completely redesigned and coded

Published on 12/13/12

Giacomo Balli has released an update to one of his most famous and loved apps for iOS: MyLyrics. This is a big step in the app's life. A complete recoding from scratch and new graphic elements completely revamped the app. Super fast at finding music, super easy to use with all actions at your finger tips. The app has already been covered by Gizmodo but now MyLyrics 4.0 is truly a must have.

San Francisco, California - iOS Entrepreneur, speaker and early stage startup mentor Giacomo Balli recently unveiled the amazing update to one of his most famous apps: MyLyrics 4.0.

If you're one of the many users that love the app you will immediately notice the complete visual redesign and be stunned by the performance and ease of use. This was achieved by recoding the app from scratch.

"This totally blew my mind". - J.B.

Feature Highlights:

- * all new user interface
- * new icon
- * enhanced music search algorithm
- * more through cross-search
- * seem-less user experience
- * super clean layout
- * crisp album covers and texts
- * beautiful animations that don't get in the way
- * all actions easily accessible
- * improved music player
- * direct links to song video, ringtone and purchase
- * advanced search if you want more results

"This app is genius! I can't count how many times I could have used it if I knew about it". - C.D.

"Great app well put together!!!!!! - It found my song in seconds, has a great GUI interface easy to use and were simple to understand. The maker of this app did a great job it works Beautifully." - Jim S.

"Great! - Even finds the random songs from the eighties. No more arguments about who sang what when listening to the radio." - Nadine H.

"Fantastic!!!! - This app is wonderful. If you have that one lyric stuck in your head you just type it in and then there it is! Other apps only look up the song and give you the lyrics, but if you don't know the song then your out of luck. This app is just what you need if this happens to you." - Mia L.

"Awesome - Best app in the whole world type in a song or artist and it pops right up I suggest u get it if you don't you will regret it" - Ben
