

Rain, Lines and Orbits - Design Tool

Published on 06/14/07

Powerful plug-in for Illustrator(R) CS3 CS2 CS 10 to generate rain, line, orbital, frame, abstract and more designs, 1000s and 1000s of unique designs for illustrations, packaging, fashion, patterns and more.

Powerful plug-in for Illustrator(R) CS3 CS2 CS 10 to generate rain, line, orbital, frame, abstract designs, particles, sprays and more designs, 1000s and 1000s of unique designs for illustrations, packaging, fashion, patterns and more.

Plug-in set comes with a large range of options to create many unique designs based around circles / squares and preset shapes (as well as selected images and symbols and paths and more). Plug-in creates randomized line designs or concentrated line designs. The paths can be exported to other applications such as After Effects (R) Photoshop (R) Flash (R) and others.

The plug-in set comes with a range of presets to help initial use and to explore the features of the plug-in set.

The plug-in also comes with many randomization features to randomize color, alternate color designs, use swatches and much more

The plug-in set comes with documentation and also a small selection of bonus symbols for use with Illustrator(R) CS3 CS2 CS 10

The plug-in set is easy to use and install, simply add the plug-in to the plug-in path and apply.

The set costs \$15 (13 euros / £9) and is available via our shareit.com sales pages, the item can be purchased using Visa, mastercard and others as well as now Paypal.

The set is a download only.

The set is called GX Rain Andrew's (Vector) Plug-ins 25.

A demo set is available via the [graphicxtras](http://graphicxtras.com) site (limited to preview only).

Adobe and Illustrator and Photoshop and Flash and After Effects are registered trademarks of Adobe Systems Incorporated.
