

Small Tree Chooses XRackPro2 for NAB 2009

Published on 04/24/09

GizMac Accessories LLC, designer and manufacturer of a unique line of computer racks for the noise reduction of rackmount electronic equipment, partners with Small Tree to reduce noise of rack mount equipment used for networking and storage at their booth during the National Association of Broadcasters 2009 show. Small Tree designs cost-effective networking and shared storage products for professional video and audio editors.

N computer racks for the noise reduction of rackmount electronic equipment, partners with Small Tree to reduce noise of rack mount equipment used for networking and storage at their booth during the National Association of Broadcasters (NAB) 2009 show.

Small Tree designs cost-effective networking and shared storage products for professional video and audio editors. At NAB 2009, Small Tree will minimize noise from its new GraniteSTOR ST-RAID by using the XRackPro2 rack at their booth (SL10210). The new ST-RAID provides robust, consistent performance over Ethernet networks while offering optimal cost-efficiency.
