

Speed Download 5 released - Turbo-Charged Download Manager for Mac OS X

Published on 04/27/09

Yazsoft has announced Speed Download 5.1.3. Overhauled from top to bottom, Speed Download 5 redefines the Mac OS X download manager by combining four amazing products - a turbo-charged download manager with auto-resuming downloads, a fully featured secure FTP client, a file sharing utility with full encryption, and complete .Mac/iDisk/WEBDAV connectivity - into one small and easy to use application. And now with RSS newsreader integration.

Chicago, Illinois - Yazsoft has announced Speed Download 5.1.3. Developed exclusively for Mac OS X, Speed Download is an easy to use, powerful and reliable download manager. Speed

Download sets a higher standard for download manager innovation, and is expressly designed to be a central, unified hub for almost all downloading and file transfer activities.

This major new update continues to enhance and tweak the performance of Speed Download to ensure utmost reliability. Version 5.1.3 includes tons of key improvements, and is a recommended update for all Speed Download 5 users.

Some Key New Features in Version 5.1.3:

- * New: Added support for .aax mime type
- * New: Added ability to download mp4 file instead of just flv from YouTube
- * Updated: Fix for resuming with one particular server

Supported Languages:

- * US English, French, Polish

System Requirements:

- * Requires Mac OS X 10.4.11 or later; Leopard ready
- * 19 MB Hard Drive Space
- * Internet connection
- * Any popular Mac OS X Internet browser

Pricing and Availability:

- * \$25: 1 User license
- * \$40: 2 User license (Save \$10)
- * \$100: 5 user license (Save \$25)
- * Upgrade pricing available to qualified users

For A Limited Time: Discounted promo bundle offering two (2) licenses of both ShareTool and Speed Download 5.x available on our Kagi store.

Speed Download has been met with praise from reviewers, web authors, developers, and beta testers. "The fastest, most complete most recommended download manager for the Mac" - MacReview. We are a team dedicated to developing quality software for the Macintosh platform. Thanks to all for your support.
