

Tropical Software Releases TopXNotes touch 1.2.2 for iOS

Published on 01/30/13

Tropical Software has announced TopXNotes touch 1.2.2, an update to their award-winning personal note managing system for Mac, iPhone, iPod touch and iPad. TopXNotes touch for iPhone features basic note creation and editing in landscape and portrait modes, direct emailing of notes from the app, backup/restore to the device, clickable hot links, and note synchronization with TopXNotes for Mac. With this release NoteOrganizer, the note list, can be sorted four different ways.

Atlantic Beach, Florida - Tropical Software has announced the release of TopXNotes touch 1.2.2 for iPhone and iPod touch, with NoteZoom, is available in the Apple iTunes store. Now the NoteOrganizer (note list) can be sorted four different ways. This release is the latest advance in a series of companion products we plan to release for Apple touch devices. Be sure to try our note organizing solution for iPhone notes today.

TopXNotes touch features note creation and editing in landscape and portrait modes, emailing a note, backup/restore to the device, clickable hot links, and note synchronization (NoteSync) with TopXNotes for Mac. You also have full access to all fonts and font sizes Apple offers in iOS. Now you can also have your notes "on the go", create new notes, edit notes, delete some and keep them in sync with your Mac's notes.

In this release NoteOrganizer (note list) now can be sorted by note title or date, ascending or descending for either. Other changes include changing the user interface default fonts to a more popular font. The NoteOrganizer list titles, list dates, search, email, and the default note font are now the preferred iOS system font (Helvetica.) Also in TopXNotes touch 1.2.2 we made even more changes to accommodate retina display and new screen sizes in iPhone 5 and iPad 3.

This release of TopXNotes touch for iPhone and iPod touch, with retina graphics updates, compliments the release of TopXNotes 1.7.4, the latest update to its award-winning personal note manager for Macintosh. When combined with TopXNotes for Mac customers can synchronize notes between one Mac and multiple devices running TopXNotes touch including iPhone, iPod touch and/or iPad.

TopXNotes touch also works perfectly with Apple's latest iOS 6 and TopXNotes touch even supports the latest iOS spell checking. With NoteZoom you can adjust the font size on the go as you hurry to the next destination. Included in NoteZoom is the ability to choose from all of the fonts supported in the iOS.

Device Requirements:

- * iPhone, iPad, or iPod touch
- * Requires iOS 4.3 or later
- * 2.3 MB

Pricing and Availability:

TopXNotes touch 1.2.2 is only \$0.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Productivity category.
