

Special Offer: Merlin 2 Websharing Bundle

Published on 01/31/13

ProjectWizards announces the Merlin 2 Websharing Bundle. The Merlin 2 Websharing Bundle combines a Merlin for Mac OS X licence and the Merlin for Web Browsers Module. Users will leverage the power of the leading professional project management software for Mac OS X and share projects with Mac, Windows, and Linux users via Web access. The Web Browser Module ensures that Merlin projects are always up-to-date and synchronized with each other. The bundle is available for February and March, 2013.

Melle, Germany - ProjectWizards announces the Merlin 2 Websharing Bundle. The Merlin 2 Websharing Bundle combines a Merlin for Mac OS X licence and the Merlin for Web Browsers Module. Users will leverage the power of the leading professional project management software for Mac OS X and share projects with Mac, Windows, and Linux users via Web access.

Merlin is intuitive, easy to use and offers a variety of options to help you plan, take control, collaborate and complete your project successfully. Merlin is network aware. It's easy to make Merlin projects available for group collaboration across a LAN environment or Intranet.

Extend collaboration and share projects with customers or colleagues who are not using a Mac (i.e. a PC, Linux client, Android Tablet). Use the integrated web service to publish Merlin projects for online web access or simply exporting PDFs or static HTML for offline viewing.

The Web Browser Module ensures that Merlin projects are always up-to-date and synchronized with each other. In fact, the Merlin project displayed in the browser automatically updates whenever changes are made without having to manually reload the page!

System Requirements:

- * Requires Mac OS X 10.4.11 or later
- * Non Apple Device minimum Browser requirements include:
 - Safari 3
 - Firefox 3
