

## MacX DVD Ripper Pro Updated to Rip DVD to ISO Image/MKV with Fast Speed

Published on 02/01/13

MacXDVD Software today has updated their MacX DVD Ripper Pro to the most up-to-date DVD ripping software with the ability to clone DVD to ISO image and backup DVD to MKV. The update also contains several important improvements, including brand new core, about 300 output files for any devices, overhauled Mac style interface, optimized video editing function, better accessibility to latest DVD movies, faster ripping speed, batch conversion mode, and much more.

Chengdu, China - MacXDVD Software, a leading multimedia enjoyment solution provider, has updated their MacX DVD Ripper Pro to the most up-to-date DVD ripping software with the ability to clone DVD to ISO image and backup DVD to MKV. The update also contains several important improvements, including brand new core, about 300 output files for any devices, overhauled Mac style interface, optimized video editing function, better accessibility to latest DVD movies, faster ripping speed, batch conversion mode, etc.

"MacX DVD Ripper Pro is an all-in-one DVD ripping solution that lets users rip and convert DVDs to virtually any video or audio format bypassing DVD copy protection, like DVD to iPad 4/Mini, iPhone 5, iPod, PS Vita, MKV video," said Jack Han, the CEO of MacXDVD Software. "The new version demonstrates a significant leap from the previous edition; better help consumers get the most out of their digital lifestyle."

Aiming to make MacX DVD Ripper Pro the most up-to-date DVD ripper software, MacXDVD Software development team continuously publishes technical improvements for its vast number of users worldwide. It is also manifested by this update, with the following contents:

- \* A new DVD backup mode for Clone DVD to ISO Image
- \* A new DVD backup mode for Backup DVD to MKV
- \* Support backup Video TS and DVD ISO files to MKV format
- \* Add iPod Nano, iPod Classic and PlayStation Vita profile
- \* Improved DVD structure analyzing module to analyze DVD main title conveniently
- \* Redefine the default value limit for video channel in Mac General Video profile settings
- \* Adjust maximum limit of video bitrate (Quality) in Mac General Video profile settings
- \* Optimized audio track preselect module, skipping soundtrack ID "0" while setting up default selection

### Pricing and Availability:

The new features are available as a free update for all existing customers. For new users, the latest version of this DVD ripping software is priced at \$39.95 (USD) only.
