For the first time ever, immerse yourself in the world of CSI: NY. Experience original cases written by CSI writers and solve mysteries alongside your favorite characters from the hit TV crime show. Piece together clues and uncover hidden evidence in the biggest city in America.

Calgary, Canada - Macgamestore.com today announced the availability of CSI:NY - The Game for the Mac through its web site and digital download service, Mac Games Arcade. The game is published by Ubisoft. For the first time ever, immerse yourself in the world of CSI: NY. Experience original cases written by CSI writers and solve mysteries alongside your favorite characters from the hit TV crime show.

\* Solve Crimes In The Big Apple - Finally, CSI fans can experience the world, characters and mysteries of CSI: NY. Piece together clues and uncover hidden evidence in the biggest city in America. Explore five brand-new, bizarre crimes and bring suspects to justice.

\* Play As The Stars - For the first time, you can take on the role of CSI stars as you play the characters of Detectives Mac Taylor and Stella Bonasera.

\* More Accessible Gameplay - A new, moody graphic-novel art style and more user-friendly interface will assure accessibility and hours of replay for all types of gamers. Improved gameplay includes new mechanics for conversations, blood work, computer use and much more.

\* Control Interrogations - For the first time in CSI, control interrogations and use evidence to reveal a suspect's lies. Take part in dramatic interrogations, and create atmospheric reenactments while exploring grisly crime scenes inspired by the show.

\* Dig Deeper With New Mini-Games - Includes an incredible variety of new mini-games, including code breaking, facial reconstruction, identify locations from photos, triangulate shooter locations, manipulate the X-Ray scanner, physics simulation reconstructions, identify poisons, compare samples for differences, Internet searching and more!

### System Requirements:

- \* Intel Mac
- \* Mac OS X 10.5 or later
- \* RAM: 512 MB RAM
- \* Video Card: Radeon 9000 or similar
- \* Hard Drive Space: 700 MB
