

PocketPharmacist Integrates Walgreens Mobile Refill Technology

Published on 02/04/13

Danike today is pleased to announce the addition of prescription medication refills through Walgreens as one of the latest features to PocketPharmacist 3.1.8 for iOS. PocketPharmacist is a medication-based mobile application for iPhone, iPod touch, iPad, Android mobile, and Android tablet. The new medication refill feature will enable PocketPharmacist users to refill a Walgreens prescription within seconds.

Rancho Santa Margarita, California - Danike today is pleased to announce the addition of prescription medication refills through Walgreens as one of the latest features to PocketPharmacist for iOS. PocketPharmacist is a medication-based mobile application for iPhone, iPod touch, iPad, Android mobile, and Android tablet.

PocketPharmacist is among the first iOS apps to offer this technology, specifically designed by Walgreens to make prescription refills easier. "People continue to become increasingly engaged with their mobile devices and use the technology to help make their day-to-day lives easier," said Abhi Dhar, Walgreens e-commerce chief technology officer.

The new medication refill feature will enable PocketPharmacist users to refill a Walgreens prescription within seconds. "PocketPharmacist is thrilled to offer iOS users both the convenience and ease of refilling their Walgreens prescriptions," said Michael Guren, founder and CEO of Danike, Inc. "We believe this adds to our goal of helping people better understand and manage their medications."

PocketPharmacist is quickly becoming the most trusted Medical app on iOS as evidenced by 900+ iOS user reviews averaging 4.5 stars. PocketPharmacist provides crystal clear drug information, interaction alerts, and the easiest to use medication organizer. It is currently used by thousands of healthcare professionals, caregivers, students, and individuals all interested in:

- * Understanding medications and drug interactions
- * Organizing complex medication regimens
- * Unbiased information (\$0 in pharmaceutical sponsorship)

Please visit our website for more information.

Device Requirements:

- * iPhone 3GS/4/4S/5, iPod touch (3rd/4th/5th generation), and iPad
- * Requires iOS 5.0 or later
- * Universal app optimized for display on all iOS devices
- * Optimized for iPhone 5
- * 4.9 MB
