

Crypt My Pic Keeps Private and Sensitive Pictures Secure

Published on 02/06/13

Jade Development announces Crypt My Pic 2.0, an app that will help keep private and sensitive pictures secure. Users won't ever have to worry about private pictures if they lose their phone. Crypt My Pic uses high security algorithms to encrypt pictures and keep them private. Only the user or those the user designates will be able to see the picture. It allows users to save the encrypted pictures or share them by email with friends. Android and iOS versions are fully compatible.

Madrid, Spain - Jade Development announces Crypt My Pic 2.0, an app that will help keep private and sensitive pictures secure. Users won't ever have to worry about private pictures if they lose their phone.

Crypt My Pic uses high security algorithms to encrypt pictures and keep them private. Only the user or those the user designates will be able to see the picture. It allows users to save the encrypted pictures or share them by email with friends. Android and iOS versions are released and they are fully compatible between them. Users can use it for private and sensitive pictures and also for keeping your bank coordinates safe, so they don't have to take the information with them. Each picture can be encrypted with its own unique password or users can use the same password for some of them.

Feature Highlights:

- * High encryption algorithms (AES-256)
- * Share your private pictures with your friends, and no one else will be able to see them
- * Fully compatible between Android and iOS
- * Don't worry if someone takes your phone or you lose it, as they will not be able to see pictures secured with the application

Language Support:

English, French, Russian, Spanish

Device Requirements:

- * iPhone 3GS/4/4S/5, iPod touch (3rd/4th/5th generation), and iPad
- * Requires iOS 5.0 or later
- * Universal app optimized for display on all iOS devices
- * 0.7 MB

Pricing and Availability:

Crypt My Pic 2.0 is only \$0.99 USD (or equivalent amount in other currencies) and available worldwide through the App Store in the Utilities category.
