

Moeee introduces Match 2 Catch 1.0 for iPhone and iPod Touch

Published on 04/30/09

Hong Kong based Moeee Company Limited introduced Match 2 Catch 1.0 today, their new children's matching game for iPhone and iPod Touch. Developed to take advantage of the iPhone's unique abilities and interface, Match 2 Catch is a new type of match and pair game especially for younger children. It allows younger kids to match images to its sound, and specifically designed to improve memory training. Match 2 Catch is fun for all ages, yet compelling as it combines both sound and image to play.

Kowloon, Hong Kong - Moeee Company Limited introduced Match 2 Catch 1.0 today, their new children's matching game for iPhone and iPod Touch. Developed to take advantage of the iPhone's unique abilities and interface, Match 2 Catch is a new type of match and pair game especially for younger children. It's fun for all ages, yet compelling as it combines both sound and image to keep young players challenged and engaged.

Match 2 Catch allows younger kids to match images to its sound and is specifically designed to improve memory training. Settings allow gameplay on the easier level, and Match 2 Catch features higher levels that are more difficult to finish. The last three levels (10-12) the image is matched to its sound. Other levels are either image to image and sound to sound. Once all the levels are completed at one try, there is a short animation to show all the animals. The images are quite cute and young children should find them attractive.

Feature Highlights:

- * Children use their idle time with memory exercises
- * Recognize the sounds of different animals
- * Challenge children to better themselves and go to the next level
- * Compete with their friends and parents for highest score

"Moeee is dedicated to producing creative products for the iPhone platform" said Stephen Ting, President of Moeee Company Limited. "Match 2 Catch is our first attempt in the App area and we will continue to create interesting products as we move forward. Match 2 Catch is mainly a simple but elegant matching and pairing game. Originally we wanted to use cards to pair but then we felt that kids might like it better if we create animals and their sounds so that one can match a pair in a creative way."

System Requirements:

- * iPhone or iPod Touch, requires iPhone 2.0 Software Update

Pricing and Availability:

Match 2 Catch 1.0 for iPhone is only \$0.99 (USD) and available exclusively through Apple's App Store.
