

Classic - Match-3 game with emphasis on gameplay, graphics and sound

Published on 02/21/13

PixelOxygen is proud to introduce Glassic 1.0 for iOS. Glassic is our view on the ideal Match 3 game. When developing Glassic we've concentrated on ideal classic gameplay, clean graphics, great animations, sound and music. To add even more fun we've made balls out of glass, with the cool effects when you create a combination and break them. I think players will definitely will like this! Glassic is a good way to kill some time or relax sitting on you comfortable couch. It is easy to play.

Rostov-on-Don, Russian Federation - PixelOxygen is proud to introduce Glassic 1.0 for iOS. Glassic is our vision of the ideal Match 3 game. When developing Glassic we've concentrated on classic gameplay, clean graphics, great animations, sound and music.

To add even more fun we've made balls out of glass, with the cool effects when you create a combination and break them. I think players will definitely will love this!

You can try Glassic for Free in iTunes!

There is a lot of other match 3 games, but Glassic is different in a special way.

Ever wanted to play a match 3 game with a classic gameplay? Play without super blasting or rainbow balls, twisted plot making you press "next" button, watching some far-fetched scenario videos which take more of your time than actual game? But you still want to get a modern game of high quality? Then Glassic is what you need!

Glassic allows you:

- * Concentrate on game process.
- * Tinkle your brain finding best combinations on levels with increasing difficulty.
- * Get surrounded with cool music, sounds & animations.
- * Challenge your friends and complete strangers using Game Center.

Glassic is a good way to kill some time or relax sitting on you comfortable couch. It is easy to play, has eye pleasing graphics, atmosphere music and sounds.

We've made this game to enjoy playing it ourselves since we couldn't find any existing game in the AppStore, and even after almost 6 months of development and constant testing, which involves a lot of playing, we still enjoy playing it, so I think you just cannot get tired of such classic game!
