

## **seyDoggy announces TW002 r4 Ultimate Theme for RapidWeaver**

Published on 05/04/09

Ontario based seyDoggy is proud to announce TW002 r4, their new Ultimate Theme for RapidWeaver 4. seyDoggy has transformed this once limited theme into a versatile RapidWeaver template capable of fitting the needs of just about any industry. TW002 is ExtraContent enabled, featuring width options, split navigation, comprehensive color control, custom headers, header effects, font control, and RWmultitool ready.

Kitchener, Ontario Canada - seyDoggy is proud to announce TW002 r4, their new Ultimate Theme for RapidWeaver 4. seyDoggy has transformed this once limited theme into a versatile RapidWeaver template capable of fitting the needs of just about any industry. This is seyDoggy's second offering of the updated THEME WEAVER Library.

TW002 is packed with ExtraContent, split navigation, width options, comprehensive color control, custom headers (RWmultitool ready), header height control, font control and so much more. Among only one of the many highlights of this RapidWeaver theme is its split navigation that can be fine tuned.

RapidWeaver's own built in blog page, photo album Flash slideshow or iFrame pages lack content space outside of the page itself. TW002 is enabled with a very special feature called ExtraContent, the fruits of a collaborative effort from a number of 3rd party theme developers. ExtraContent makes it possible to add a personal touch to previously unreachable pages. Write unique content for all three ExtraContent areas, on each and every page.

"THEME WEAVER's sophomore RapidWeaver theme TW002 was initially thought to be well suited to the corporate and commercial sectors" cites Adam Merrifield. "With a little seyDesign magic, however, we think we've transformed TW002, a once limited theme, into a versatile RapidWeaver template. We're glad to have been able to update this theme. It's the same stylish TW002 with a lot more horse power under the hood."

TW002 includes 2 ExtraContent areas; the Top panel and the Bottom panel. Both areas have their own color control and can also be accentuated with custom background images using RWmultitool Lite. Each ExtraContent area in TW002 is vertically scalable, meaning these areas will grow to suite the content within. These ExtraContent areas are optional. This flexibility allows users to leverage TW002 as they would any other RapidWeaver theme.

### Feature Highlights:

- \* ExtraContent
- \* RWmultitool ready
- \* Split Navigation
- \* Full color options
- \* Width control
- \* Font size
- \* Font family selections

- \* RWmultitool Lite Optional

Formed in late 2006, THEME WEAVER of Mississauga, Ontario, is the RapidWeaver theme development wing of print studio, PUMP Communications/Presentation Plus. Guided by Adam

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

Merrifield of seyDoggy/seyDesign fame, THEME WEAVER successfully produced 10 new themes from January 2007 to February 2008 and issued updates through to October 2008.

Today, due to time constraints on both parties, it's been decided that THEME WEAVER themes will be distributed and supported by seyDesign. Keeping them as originally intended will be the primary goal, but in some cases, enhancements and embellishments have been made where ever the opportunity has presented itself.

Pricing and Availability:

TW002 r4 is available now for \$19.49 CAD at their online RapidWeaver theme store.

Headquartered in Kitchener, Ontario Canada, seyDoggy is a privately funded company founded in 2005 by Adam Merrifield. Leveraging their longtime experience in web and graphic design, seyDoggy's goal is to develop great looking theme designs for RapidWeaver, and lead to the creation of seyDesign. Known for developing the first commercially available theme with split navigation, seyDesign is responsible for continually pushing the limits of RapidWeaver. seyDoggy also offers consulting services for companies looking to enter the web design industry or who don't want to hire full time staff to manage their own internet or intranet web systems.
