

Nolobe Releases Interarchy 8.5.3

Published on 06/20/07

Nolobe today announced the release and immediate availability of Interarchy 8.5.3, an update to its advanced award-winning file transfer application for Mac OS X.

Nolobe today announced the release and immediate availability of Interarchy 8.5.3, an update to its advanced award-winning file transfer application for Mac OS X.

Interarchy 8.5.3 is primarily a maintenance release that fixes reported issues and adds several other refinements. It is recommended for all Interarchy 8.x users. Detailed information on all of the changes and improvements in Interarchy 8.5.3 can be found at:

<http://nolobe.com/interarchy/releasenotes/>

For more information on Interarchy, and to download a fully functional demo version, visit the company's website:

<http://nolobe.com/interarchy/>

The Interarchy 8.5.3 update is available free of charge to all registered Interarchy 8 customers from the Nolobe website:

<http://nolobe.com/interarchy/>

Customers using a licensed version of Interarchy earlier than 8 can upgrade to Interarchy 8.5.3 for US\$29.95:
