

Tag, you're it! Nicholas Stratigopoulos launches fourth app, Tag Games

Published on 03/13/13

Physical and health education teacher, Nicholas Stratigopoulos is revisiting the classic game of tag. Tag Games 1.0 provides teachers, coaches, animators, activity specialists and camp counselors alike with the tools needed to create an environment that is conducive to the way children learn the principles of pursuit and evade. Both educational and fun for all those involved, the app includes 100 different games and activities designed to keep students of all ages captivated and on the move.

Montreal (Quebec) Canada - With the release of his fourth physical education app, physical and health education teacher, Nicholas Stratigopoulos is revisiting the classic game of tag. Tag Games includes 100 different games and activities designed to keep students of all ages captivated and on the move.

Tag Games provides teachers, coaches, animators, activity specialists and camp counselors alike with the tools needed to create an environment that is conducive to the way children learn the principles of pursuit and evade. More so, Tag Games keeps children active through a game that is both educational and fun for all those involved.

The new app features categorized lessons, quick and easy-to-use searching capabilities, a tap or shake option to randomly generate new games on screen, a built-in timer, and a growing database of new games and activities generated on a continuous basis. In fact, the developers of the app welcome submissions to the application's database.

Those interested in Tag Games should also check out Nicholas Stratigopoulos' other physical education apps: TGfU Games PE, Basketball PE, and Soccer PE. Interested in learning more about the Tag Games application or want to submit your own games to their database? Visit Tag Games online.
