

Schools Discover Answer To Teaching Writing In Middle School

Published on 03/18/13

Students no longer sit in front of a computer to write essays. They have gone mobile and have taken their writing assignments right along with them. It is time writing instructional technology catches up and delivers premium content and functionality on mobile platforms. Middle School Writing 1.0, for iPad and iPhone, is all students need to begin learning superior writing and critical thinking skills. Buy it in the App Store today! Your students and kids will thank you for it!

Charlottesville, Virginia - Students no longer sit in front of a computer to write essays. They have gone mobile and have taken their writing assignments right along with them. It is time writing instructional technology catches up and delivers premium content and functionality on mobile platforms. Middle School Writing 1.0, for iPad and iPhone, is all students need to begin learning superior writing and critical thinking skills. Buy it in the App Store today! Your students and kids will thank you for it!

The work anywhere, anytime culture is here and even young students have adopted the efficiency provided by mobile technology to use their time most wisely. However, there is a drawback. Few mobile apps provide the content plus the functionality to both learn and work effectively. Middle School Writing 1.0 by Niles Technology Group is a premium example of the best of both worlds; excellent instructional content that teaches writing and the essential functionality of a well-structured writing platform - all in one app. Students learn the basics of writing and apply the skills immediately within the app. The app is self-contained with no Internet connection required, so there are no expensive data charges or lost connections. Middle School Writing 1.0 is truly a work anywhere, anytime essay writing app!

Parents, teachers and schools are discovering the efficacy of Niles Technology apps. Each month, school volume purchases of the apps increase, which indicates that the use of mobile technology in schools is becoming more commonplace. Parents are also catching on because Essay Workstation 2.1 is the No. 1 gifted app in the Niles inventory. Middle School Writing 1.0 and High School Writing 3.0 are virtually tied as solid No. 2 bestsellers, with both parents and schools purchasing the apps.
