

High Gloss Software releases Sound Grenade 1.3.1 - Instant Crowd Control

Published on 05/08/09

High Gloss Software today has released Sound Grenade 1.3.1, is now available for iPhone and iPod Touch. Featured on the Wall Street Journal Digits blog for being one of the most annoying apps of all time, Sound Grenade gives you instant crowd control, and universally irritates. The brand new Sound Grenade website gives users the opportunity to annoy their friends by sharing the website with them through email, facebook, twitter, bebo or myspace, without having to take the full blast themselves.

Christchurch, New Zealand - High Gloss Software today has released Sound Grenade 1.3.1, the smash hit iPhone App that was downloaded over 2 million times is now available online. Sound Grenade, featured on the Wall Street Journal Digits blog for being one of the most annoying apps of all time, gives you instant crowd control, and universally irritates.

That party get a little bit out of control? Sound Grenade is the answer. Sound Grenade generates a really, really annoying, nauseating and headache producing high pitched sound. Sound Grenade became the number one app in the App Store shortly after it's release. Since then it has been downloaded more than 2 million times on iPhone and iPod Touch. It is also one of the most downloaded apps on the Android Marketplace.

The brand new Sound Grenade website gives users the opportunity to annoy their friends by sharing the website with them through email, facebook, twitter, bebo or myspace, without having to take the full blast themselves. Users get a chance to share the Sound Grenade experience with anyone, making the famous Sound Grenade frequency only a click away.

Minimum Requirements:
iPhone and iPod Touch 2.2 or later

Pricing and Availability:
Sound Grenade 1.3.1 for iPhone free, and available exclusively through Apple's App Store. Sound Grenade Pro, the paid version of the application is available on the App Store and features several additional grenades, each designed for maximum irritation.
