

Keynote Zone Launches with Five New Keynote Themes

Published on 05/11/09

Keynote Zone has launched their new theme resource specifically for Apple's Keynote. With a passion for new possibilities, KZ designers combined their creative energy to come up with a package of professionally designed ready-to-use themes for Apple's Keynote application. Five new Keynote themes are now available for sale in standard or HD formats at brand new Keynote Zone site.

Vilnius, Lithuania - Keynote Zone has launched their new theme resource specifically for Apple's Keynote. With a passion for new possibilities, KZ designers combined their creative energy to come up with a package of professionally designed ready-to-use themes for Apple's Keynote application. Five new Keynote themes are now available for sale in standard or HD formats at brand new Keynote Zone site.

Metal theme

A unique technology based theme with custom designed transitions. Ideal for presentations that require a clean contemporary look. The theme includes 45 layouts, custom designed charts and tables. Metal HD version theme includes unique custom designed opening and closing metal door transitions that you can place on your slides as openers or closers.

Rounded theme

Eye-friendly, color oriented theme, based on rounded forms that create a soft and cozy atmosphere.

The theme includes 44 layouts, custom designed charts and tables. Rounded HD version theme

includes three complete themes, each in its own complete color palette.

Corporate theme

Adaptable, general-purpose theme with a clear business-casual aesthetic that will match your professional content. The theme includes 40 layouts, custom designed charts and tables.

R&W theme

Elegant and luxurious Keynote theme that combines modern and classical looks and represents aesthetic and passion for excellence. The theme includes 40 layouts, custom designed charts and tables.

Paper theme

Paper theme suggests the traditionally simple and clear design that brings the paper back into the digital age. The theme includes 40 layouts, custom designed charts and tables.

Keynote Zone offers high quality and easy to use themes that will help to expand your Apple's Keynote features. Standard version themes comes in 2 sizes (800x600 & 1024x768), HD version themes comes in 5 sizes (800x600, 1024x768, 1280x720, 1680x1050, 1920x1080).

Requirements:

* Mac OS X version 10.4.10 or later

* iWork '08 (Keynote 4) or iWork '09 (Keynote 5)

Pricing and Availability:

The Keynote themes are available for download at Keynote Zone site and are priced starting from \$16 (USD) for standard version and starting from \$20 for HD version.
