

## **New Speed Download Turbo-Charges Downloading on Mac OS 10.5.7 and more**

Published on 05/14/09

Yazsoft has announced Speed Download 5.1.4. Overhauled from top to bottom, Speed Download 5 redefines the Mac OS X download manager by combining four amazing products - a turbo-charged download manager with auto-resuming downloads, a fully featured secure FTP client, a file sharing utility with full encryption, and complete .Mac/iDisk/WEBDAV connectivity - into one small and easy to use application. And now with RSS newsreader integration.

Chicago, Illinois - Yazsoft has announced Speed Download 5.1.4. Developed exclusively for Mac OS X, Speed Download is an easy to use, powerful and reliable download manager. Speed

Download sets a higher standard for download manager innovation, and is expressly designed to be a central, unified hub for almost all downloading and file transfer activities.
