

Cynical Peak Software releases Scorecard 2.0 - Golf Scorecard/Statistics

Published on 05/18/09

Cynical Peak Software announces the release of Scorecard 2, their golf scorecard and statistics application for Mac OS X and Windows XP and Vista. Scorecard allows golf enthusiasts to track statistics on Mac and Windows systems. The application offers comprehensive statistics, helping users discover trends and explore aspects of their gameplay that might otherwise go unnoticed. Scorecard 2 add Nine-hole round support, graphing, and per hole notes, plus a host of smaller updates and improvements.

Scottsdale, Arizona - Cynical Peak Software announces the release of Scorecard 2, their golf scorecard and statistics application for Mac OS X and Windows XP and Vista. Scorecard is a cross-platform golf statistics application that helps users understand their golf game at a deeper level. Armed with the knowledge of where they're losing shots, what they can improve, and how far they need to go before they're playing the kind of golf that they want be playing, they can then work to implement changes in their game.

Scorecard 2.0 features three of the most widely asked for features, as well as a host of smaller tweaks, updates, and improvements. First, Scorecard 2 adds support for nine-hole rounds, both for handicap calculations and for statistics generation. Second, Scorecard now allows users to graph their statistics over time so that they can see at a glance if they're improving, slacking, or treading water. Third, per hole notes have been added, allowing the user to any additional pieces of information that they would like to record.

Feature Highlights in Version 2.0:

- * Nine-hole round support
- * Graphing of all major statistics
- * Per hole notes for additional recording
- * Statistical markers to mark events
- * Track your handicap and anti-handicap to monitor your overall game play
- * Follow over 30 essential stats to monitor all aspects of your game
- * Syncing with Scorecard for the iPhone
- * Easy course and round entry to quickly update your stats after each round
- * HTML export of rounds for displaying on the web

System Requirements Mac:

- * Requires Mac OS X v10.4.11 or later
- * 4.3 MB Hard Drive space

System Requirements Windows:

- * Requires Windows XP or Vista
- * .Net Framework 3.5 or newer
- * 5.5 MB Hard Drive space

Pricing and Availability:

Scorecard 2.0 may be purchased for \$29.95 (USD) and comes with a fully featured demo that is limited to 5 rounds. Owners of Scorecard v1 may purchase an upgrade license for \$14.95 and all purchases since January 1, 2009 are eligible for a free upgrade.
