

## **FileMaker Newsletter - YouTube Magic, Security Techniques**

Published on 05/19/09

Every month FMWebschool releases an exciting FileMaker newsletter to over 8500 FileMaker enthusiasts. Each issue is chock full of free FileMaker sample files, how-to workshops and articles on how to grow your business. This month we include three free unlocked sample files. FMTrial enables you to instantly protect your database. FMTube allows you to edit YouTube videos in FileMaker. FMTweet Job Finder shows how to Tweet hot topics to Twitter. Join the Newsletter before May 21st!

Richmond, VA - Every month FMWebschool releases an exciting FileMaker newsletter to over 8500 FileMaker enthusiasts. Each issue is chock full of free FileMaker sample files, how-to workshops and articles on how to grow your business. To make sure you don't miss out on the opportunity to get the FMTrial, FMTube and FMTweet Job Finder sample files be sure to sign up before Thursday May 21st.

This month we continue with our FileMaker meets social media theme as we release FMTube. YouTube is the king of online video content. No matter what your interest, you will most likely find that someone has posted a video on that topic.

For businesses, YouTube offers a great arena to showcase new products and even offer tutorials. This is where FMTube comes in, FMTube enables you to insert a video into FileMaker and instantly edit the display features of the videos. You can then instantly imbed the video into your website or blog, or even email or Twitter the video. The article comes with an unlocked database and movie to show you how.

Last month we introduced FMTweet. FMTweet is a FileMaker solution that enables you to send messages to Twitter without a plug-in. The database is completely unlocked so you can easily add it to your own solutions. A developer took FMTweet and created a great solution that allows companies to post job openings to Twitter instantly. We've included the unlocked solution for you.

FMTrial is a fun solution that allows you to lock down FileMaker. If you sell a solution, you can lock down FileMaker into trial mode until the client purchases FileMaker. This is a very simple technique using some JavaScript code and the webviewer. We've included the sample files and a video with this newsletter.

If you are a FileMaker enthusiast and you would like to learn how to be a more creative programmer, or if you would like to learn how to market and grow your business - the FMWebschool newsletter is just what you need. We only send our newsletter out once a month. This issue will be released on Thursday May 21st - so be sure to subscribe right away.
