Published on 05/24/13

AppAnnex LLC Speed Tracker. GPS Speedometer and Trip Computer 5.0. The app combined GPS speedometer, Trip Log and Trip computer in one unique application. It records automatically your location, speed, time, distance and many more. Speed Tracker is available for special price of \$0.99 USD which is 75% off regular price of \$3.99 exclusively through the iTunes App Store in Navigation category. The promotional price will be in effect until May 27th, 2013.

Feasterville, Pennsylvania - AppAnnex LLC has proudly announced the worldwide availability of the newest Speed Tracker 5.0. GPS Speedometer and Trip Computer. Just in time for the summer driving season you can now use its full power.

Speed Tracker did a great job by combining GPS speedometer, Trip Log and Trip computer in one unique application. No more need for endless list of applications on your iPhone and iPad. Just take Speed Tracker app with you and record automatically your location, speed, time, distance and many many more.

Version 5.0 has new stunning graphics and support for iPhone 5 screen resolution, completely redesigned User Experience with improved ergonomics and usability and improved GPS tracking with the best in class accuracy.

Speed Tracker has lot of built-in features that help you to gather all the necessary trip statistics while driving. Before going on a trip, start the application and enjoy. Speed Tracker will do all the automatic calculations and save all your stats.

Build-in GPS navigator will help you not to get lost. You can always switch to navigation mode and check your current position on the map together with the whole distance you've already covered.

And with Trip Log and Trip Computer you will always have the access too all you trips. View your trips, compare them, export your data and even share with friends and family via Facebook, Twitter or email.
