

## **Boinx Software announces FotoMagico Remote for iPhone/iPod touch**

Published on 05/26/09

Boinx Software today announces the availability of FotoMagico Remote to control a live FotoMagico 3 slideshow with iPhone or iPod touch. To help presenters with their live narration, FotoMagico Remote also includes a teleprompter that displays a thumbnail and the speaker notes for the currently displayed slide. With FotoMagico Remote you are free to walk around the stage in front of your audience while narrating your slideshow.

Munich, Germany - Boinx Software today announces the availability of FotoMagico Remote to control a live FotoMagico 3 slideshow with iPhone or iPod touch. To help presenters with their live narration, FotoMagico Remote also includes a teleprompter that displays a thumbnail and the speaker notes for the currently displayed slide. FotoMagico Remote can be purchased exclusively at the iTunes App Store for \$19.95.

"Using the FotoMagico Remote on stage gives you unprecedented control and makes you look cool," says Oliver Breidenbach, CEO of Boinx Software. "Adding this to your iPhone or iPod touch comes much cheaper than buying one of the less stylish and less useful hardware remote control devices on the market."

### **Presenting The Professional Way**

A fullscreen presentation with FotoMagico 3 can now be remotely controlled with the "FotoMagico Remote" application on iPhone or iPod touch. FotoMagico Remote provides playback remote control and a teleprompter right in your palm. You can read your notes and get a visual feedback of the duration of the current slide on the screen, giving your whole live presentation a highly professional touch.

With FotoMagico Remote you are free to walk around the stage in front of your audience while narrating your slideshow. FotoMagico Remote on your iPhone or iPod touch is the perfect addition to FotoMagico 3 Pro!

### **Secure Remote Control:**

Remote controlling a live presentation with your iPhone or iPod touch can be protected with a four digit PIN code. Setting the PIN code makes sure nobody else can interfere with the presentation.

### **System Requirements:**

FotoMagico Remote runs on any iPhone or iPod touch with iPhone OS 2.2.1 or later. FotoMagico Remote requires FotoMagico 3.0 (or later) running Mac OS Leopard (or later) and an available local WiFi network for the communication between the Mac and the iPhone or iPod touch.

### **Availability and Pricing:**

FotoMagico Remote for iPhone and iPod touch is available exclusively at the iTunes App Store for \$19.95 (USD).

### **About FotoMagico and FotoMagico Remote**

FotoMagico, winner of two Apple Design Awards - "Best Mac OS X Leopard Graphics and Media

Application Runner-up 2008" and "Best Mac OS X User Experience Runner-up 2006", is a storytelling tool for digital photographers. It is easy to use and produces impressive presentations that makes the audience want more. The optional FotoMagico Remote allows to control FotoMagico 3 shows conveniently with the iPhone or iPod touch.
