Hong Kong, China - iFree Studio announces that it has added eight new Runes to further enhance the gameplay for Lies of Astaroth 1.2.2. Lies of Astaroth, a fantasy MMORPG card game combining card collection, role playing, adventure and social interaction characteristics, was released on January 15th, 2013. You can find it in the App Store and download the latest version of Lies of Astaroth. In order to create a more interesting gaming environment, the iFree studio Team has add eight new Runes to the game, to make the LoA experience a more enjoyable ride. The eight Runes are: Burning Soul, Lore, Holy Well, Frost Bite, Flying Stone, Dirt, Raised Flag and Nimble Soul.

The Runes System is a quite creative feature and it demands a more strategic thinking process from the players. Every player can equip up to 4 Runes, and those Runes fall into four different attributes; each Rune leads to different a effect with the higher level of Runes having the strongest effect. Before you trigger the function of Runes, you have to meet all requirements. For example, watery attribute with Frost Rune can only be activated when there are at least three cards in your Cemetery. Accordingly, Runes will automatically start frost attack. Moreover, low level Runes may cause damage to one card at a time whereas higher Runes can cause more damage and affect more cards. Making good use of the Runes System may be your turning point to victory when you are at a disadvantage in battle. With the introduction of these new Runes, the gamer can show their wisdom and ability to organize them in a devastating way to defeat their enemy.
