

## **iHanWel releases iBody 1.7.4 for iPhone - Get in Shape for Summer**

Published on 05/29/09

For three straight days, iHanWel is offering their popular app iBody at a special reduced price. iBody turns the iPhone into a true fitness trainer that can be used every day. Despite its extensive and practical features, iBody is extremely easy to use. Once you've entered your basic data, you can take your iPhone along with you on your runs or bike rides. Its GPS function enables it to calculate the length of the route and the speed of your trip.

Kirkel, Germany - Just in time for the next beautiful weekend, iHanWel is launching an exclusive special offer. For three straight days, the popular App iBody will be available at a special reduced price. iBody turns the iPhone into a true fitness trainer that can be used every day. Despite its extensive and practical features, the intuitive App is extremely easy to use: Once you've entered your basic data, you can take your iPhone along with you on your runs or bike rides - the App's GPS function enables it to calculate the length of the route and the speed of your trip.

The progress you make as you continue to exercise can be monitored step by step on the basis of detailed graphic displays for weight, BMI, and other personal physical data. And as you improve, you'll discover motivation to achieve even higher performance! iBody were recently named "Apps of the Week" in magazines such as MacLife and l'Express. iBody also holds the title of "Best App" in the "Health and Fitness" category, and was the recipient of the Mobie Award 2009.

Language Support:  
English, French, German and Spanish

System Requirements:  
iBody requires the 2.2 operating system or above. For GPS tracking a iPhone 3G is needed.

Pricing and Availability  
iBody will be offered for three days at a discounted price of \$4.99 (USD) instead of the regular price of \$7.99.
