

Introducing Polynumial - The All-Purpose Number Translator for iPhone

Published on 06/18/13

Independent developer, Dave Richmond, introduces Polynumial 1.0.5, the all-purpose number translating and counting app. Polynumial is a number translator for iPhone App that supports over 50 different languages, with 2 convenient modes for entering numbers, including an easy counting mode, and a flashcard practice mode. Polynumial instantly translates numbers into words as they're typed. Polynumial is available now as a free download in the App Store for iPhone, iPod touch, and iPad.

Pacific Grove, California - Independent developer, Dave Richmond, introduces Polynumial 1.0.5, the all-purpose number translating and counting app. Polynumial is the best way to quickly translate numbers into many languages, with the easiest to use interface and the largest base of languages supported by any app. Do you need to learn to count in another language, quickly spell-out a number, write out a number on a check, or just practice translating numbers? With Polynumial you can do all of these in over 50 languages!

Polynumial instantly translates numbers into words as they're typed. It has convenient copy and paste features so you can insert spelled numbers into your documents. Or, just use it to learn numbers and counting in another language. Polynumial has two convenient ways to enter numbers: calculator mode and odometer mode.

In calculator mode you simply type in the number using a keypad, and Polynumial instantly outputs the answer, updating automatically as you type. Odometer mode works like the old-time odometer wheel display, you spin the wheels, and Polynumial translates the number in real-time. In this mode it's easy to count up or down by ones, tens, hundreds, thousands, etc. Check out the demo links, below, for a video demonstration. Odometer mode is the easiest way to learn to count in another language. Polynumial also has a flashcard training mode to help you practice translating numbers: it shows random numbers, you guess the correct spelling, and then tap to see the answer!

Available now on the app store as a free download.

Languages Supported:

Afrikaans, Albanian, Arabic, Armenian, Azerbaijani, Belarusian, Bosnian, Bulgarian, Catalan, Chinese, Croatian, Czech, Danish, Dutch, English, Esperanto, Estonian, Faroese, Filipino, Finnish, French, Georgian, German, Greek, Hebrew, Hindi, Hungarian, Icelandic, Indonesian, Irish, Italian, Japanese, Kalaallisut, Korean, Latvian, Lithuanian, Macedonian, Malay, Maltese, Norwegian Bokml, Norwegian Nynorsk, Persian, Polish, Portuguese, Romanian, Russian, Serbian (Cyrillic & Latin), Slovak, Slovenian, Spanish, Swedish, Tamil, Thai, Turkish, Ukrainian, Vietnamese, and Welsh.
