

PopChar X 6.3 helps to find font files

Published on 06/25/13

Ergonis Software today releases PopChar X 6.3 an improved version of the company's award-winning font explorer and special character picker. PopChar X 6.3 enriches the recently introduced Font Info view with a clickable link that takes you directly to the storage location of the font file. The available fonts may come from different source folders. The new version also offers a new technique for dealing with transient clipboard contents to improve compatibility with clipboard utilities.

Hagenberg, Austria - Ergonis Software today released PopChar X 6.3, an improved version of the company's award-winning tool for efficiently exploring fonts and typing special characters. PopChar X 6.3 enriches the recently introduced Font Info view with a clickable link that takes you directly to the storage location of the font file. The available fonts may come from different source folders. The new PopChar feature helps to find a particular font, without hunting through many potential folders. And when multiple versions of a certain fonts exist, PopChar can now tell exactly which of these versions is currently in use.

The new version also offers a new technique for dealing with transient clipboard contents to improve compatibility with clipboard utilities. It adds several user interface improvements for moving and closing the PopChar window. A number of further enhancements increase compatibility with Mountain Lion and third-party applications.

Visit Ergonis Software's website to view the complete list of changes contained in this release and to download a trial copy.

PopChar solves a problem faced by every technologist and multi-lingual worker. Inserting special characters into application documents can be frustrating and results in a steady loss of productivity. With PopChar, thousands of special characters are only a few clicks away. Just pop up the PopChar window, click the desired character, and the character appears in your current document right away.

System Requirements:

PopChar X 6.3 requires OS X 10.5.8 or newer and is fully compatible with OS X Mountain Lion (OS X 10.8).

Pricing and Availability:

PopChar X can be purchased securely on the Ergonis Software website. The upgrade to PopChar 6.3 is free for anyone who owns a valid license for PopChar X 6. Upgrade paths are available for owners of older licenses. See the company's web site for information about purchases, including enterprise licenses, volume discounts, and upgrade pricing offers. Instead of purchasing PopChar separately, customers can save money by ordering the Ergonis Productivity Bundle, which also includes the text expander Typinator and the keyboard shortcut helper KeyCue.
