Melbourne, Australia - NJP Apps today is proud to introduce Cool Texts 1.0 for iOS. It allows you to send amazing texts to impress your friends with Moving Emojis, Cool Fonts and Crazy Backgrounds - all in the one app.

As creator Nick Power points out, "There are some high quality apps out there that either offer Moving Emojis, Cool Fonts or Crazy Backgrounds for your texts - but none of these apps provide you with all three like we do." Nick also states that "Some of the other apps were a bit 'clunky' and hard to use, so our other major aim was to make it as simple and user-friendly as possible."

True to his word, Nick has produced an app that is very intuitive and user-friendly, even for the less tech savvy first-time user.

However, the real appeal of this app is the ability to send up to 120 cute and funny animated emojis to amaze your friends. These moving emojis make the normal static emojis look very out-dated - so anyone who likes the normal ones will love the Moving Emojis!

You can make your message even cooler with loads of different fonts and crazy backgrounds - it is great fun & so simple to use.

Texting just got a whole lot more fun! Customise your Messages like never before!
