

Get ready for something different with Rescue Aliens for iOS and Android

Published on 07/09/13

Melbourne based, Zoope Pty Ltd. today introduces Rescue Aliens 1.0, its innovative new puzzle action adventure game for the iPhone, iPad, iPod touch and Google Play. Rescue Aliens brings players together with a motley crew of cute alien friends and challenges them to break out their alien buddies from jails all over the world. The game features physics enabled gameplay, hundreds of diverse levels, 3 star rating system, Game Center support and hours of mentally engaging action.

Melbourne, Australia - Zoope Pty Ltd., an emerging mobile application and games developer, is excited today to announce the launch of Rescue Aliens onto the App Store. A wildly original new puzzle action adventure, this game brings players together with a motley crew of cute alien friends and challenges them to break out their alien friends from human jails and send them back on their way to outer space one brain banding level at a time! Putting gamers' problem solving and arcade skills to the test, Rescue Aliens features innovative physics based gameplay, vibrant graphics, and hours worth of addictive stages to blast through! Rescue Aliens is currently available for download for free on iOS only and is a paid app to download on Google Play in the Games category.

A whimsical blend of arcade chain reaction fun set against mentally engaging puzzle inspired set-ups, this game challenges players to set off a chain reaction using their alien allies - one that ends with the captive aliens freed and up to 3 stars in your pockets! With up to six unique aliens - each with their own unique abilities such as jump, rolling, and more - gameplay always stays sophisticated and fresh too. To boot, with one hundred and twenty levels spread across six exotic global countries - and six more diverse countries, each complete with 20 new levels set to be unveiled soon - Rescue Aliens is an adventure vast enough to keep giving gamers new experiences time and time again.

A genuinely original addition to the mobile gaming arena this jet setting spectacle features the tried-and-true 3 star rating system for every level to encourage gamers to not simply scramble through every level but master it. Meanwhile level passes, the ability to unlock all levels at once. Meanwhile, IAP for Google Play will be supported later. Rescue Aliens also comes complete with original music, full Retina HD display support, a powerful physics engine to keep the action rolling smoothly, Game Center leaderboard integration and more. It's time to escape the day to day grind for a bit - break out of the ordinary and get ready for a blast with Rescue Aliens on iOS and Google Play!

Device Requirements:

- * iPhone 3GS, 4, 4S, iPhone 5, iPod touch and iPad
