Seoul, Korea - Independent developer XLUSH announced today that its hit action combat game Ninja Wrath(TM) has received a major update by the addition of a new playable character and fresh weapon skills, as well as the release of a Lite (Free) version that is now available from the App Store.

The newly added hero Hammer Ninja can be unlocked in the game for players to access a range of new weapons and skills. The Hammer Ninja is a hulking brute of a hero, slightly slower than the Claw Ninja and Sword Ninja, but with more destructive raw power. He wields a great hammer or maul that can pound and crush enemies with just a few swings, and his sub-items are piercing poison caltrops and explosive bombs that allows for new tactics and challenges.

Other additions in the update include 3 more Game Center achievements, new Leaderboards for Survival Arena to compare scores and performance tweaks.

Along with the content update, a Lite version of the game is now available on the App Store, titled "Ninja Wrath Free." Players can try out the first handful of stages from the main game for free to get a taste of the award-winning true arcade brawler gameplay.

To mark the new Hammer Ninja content update and Free version, Ninja Wrath has been discounted by 50% to \$0.99 USD or equivalent for a limited time.

Since its initial release just two months ago, Ninja Wrath has joined the ranks of reaching Top 10 Action game in 9 countries, and Top 5 Role Playing game in over 30 countries (including #2 in the US). As fans worldwide have enjoyed the fresh combination of beat-em-up action and cel-shaded animation, critics and press have awarded the initial release with accolades including an Editor's Choice Award, Bronze Award and more.

Now with new expanded content and overall gameplay improvements, Ninja Wrath looks to make an even greater splash as a top choice for action combat on the iPhone.
