

Artillery Toys - Launcher Game released for iPhone and iPod touch

Published on 08/01/13

Sydney based Cybernate today introduces Artillery Toys 1.0, its brand new game developed for iOS devices. Artillery Toys is a launch / shooter game where you kick soccer balls, Rubix cubs and teddy bear heads into stacks of blocks and toy soldiers. In order to win three star ratings you must complete the levels with the lowest amount of kicks. Each toy has different physical properties. You will have to use each toy differently to maximize its destructive powers.

Sydney, Australia - Cybernate today is thrilled to announce the release and immediate availability of Artillery Toys 1.0, its brand new game developed for iPhone, iPad and iPod touch devices. Tom was visiting Suzy. And Suzy's room is full of toys. He decided to play with them, however the game suddenly turned into battle as Tom cannot stop until he breaks all of Suzy's Toys!

Artillery Toys is a launch / shooter game where you kick soccer balls, Rubix cubs and teddy bear heads into stacks of blocks and toy soldiers. The main objective of the game is to destroy all the soldiers to win. However, in order to win three star ratings you must complete the levels with the lowest amount of kicks. Each toy has different physical properties. You will have to use each toy differently to maximize its destructive powers. This adds a layer of strategy to the game that rewards careful thinking.

This is a very colorful physics-based based game that requires more than skill to win, but also strategy. The levels are challenging, but at the same time fair. Getting 3 stars always feels like it is within reach also long as you choose the correct strategy. Accompanying the rewarding physics simulated levels are gorgeous and colorful graphics. The bright colors make this game perfect for kids. But the challenge makes it just as enjoyable for adults.
