

## Binary Formations offers Bento Users a Discounted Alternative

Published on 08/01/13

Binary Formations, makers of Home Inventory, an Apple Editors' Choice in the Mac App Store, is offering a 35% discount on Home Inventory in order to support Bento customers who are looking for a quality alternative to managing their home inventory after the recent announcement that Bento will be discontinued. Home Inventory is designed specifically for the task of cataloging your possessions with advanced features for insurance coverage analysis, reporting, importing/exporting of data & more.

Richmond, Virginia - With the recent announcement from FileMaker that Bento will be discontinued, Binary Formations is reaching out to Bento customers who use the home inventory template to offer a special discounted price for their Mac app Home Inventory, a recent Mac App Store Editors' Choice.

The discount is available August 1st - August 16th on purchases made through the website. The coupon code BENTO35 can be used to activate the discount at checkout.

While Bento is an easy to use yet fully relational database with many customizable templates, including one for home inventory, Binary Formations Mac app Home Inventory is designed specifically for the task of cataloging your possessions with advanced features for insurance coverage analysis, reporting, importing/exporting of data, and more. iOS helper apps for remote entry, barcode scanning, backup, and viewing are also available.

"We are thrilled to offer a proven, quality, and affordable alternative to those looking for a new solution for managing their home inventory. We hope the discount will be a nice welcome for those that choose Home Inventory.", states owner Diane Hamilton.

Home Inventory was first created in 2005 and has been continually updated since. The most recent major update was in February of 2013 and was named a Mac App Store Editors' Choice by Apple.

Home Inventory and its iOS helper apps, Home Inventory Photo Remote and Home Inventory Mobile Backup, are recognized as the most complete home inventory management solution for the Mac and is used by homeowners, collectors, and inventory professionals worldwide.

### System Requirements:

\* Mac OS X 10.7.4 or later
