

Knightlite Software Releases Macintosh Study Software For Firefighters

Published on 06/19/09

Knightlite has just released our award-winning Essentials of Fire Fighting Study Helper Version 5.0 for Apple Macintosh computers. This study software is designed to help Fire Fighter I and II candidates successfully complete their written certification exams. With over 13 years experience in helping firefighters attain their certifications and promotions Knightlite is the best choice for anyone with aspirations of becoming a firefighter.

Middlebury, Connecticut - Knightlite has just released our award-winning Essentials of Fire Fighting Study Helper Version 5.0 for Apple Macintosh computers. This study software is designed to help Fire Fighter I and II candidates successfully complete their written certification exams. With over 13 years experience in helping firefighters attain their certifications and promotions Knightlite is the best choice for anyone with aspirations of becoming a firefighter.

The software contains 1760 questions based on IFSTA's Essentials of Fire Fighting 5th Edition. The application also ships with 580 definitions. Take multiple choice test on-screen or print them out in a variety of ways. The software spans 21 chapters with each question having a page reference back to the IFSTA text.

The software keeps track of the questions you incorrectly answer, and even displays these questions right in the Table of Contents window. You can go back and load the questions you have incorrectly answered. You can save your sessions and return back to where you left off. The software can read the questions out loud to you, using the computer's native voice.

Create random tests from a single chapter, multiple chapters, or the entire database of questions can be randomized. Unlock the question database and add your own questions, edit existing questions, or delete questions. Print out questions in a variety of ways. Print out answer sheets and answer sheet correction keys. You can even create your own flash cards.

The Terminology section allows you to look up the definitions of 580 words. Add your own definitions to the terminology library. Create custom terminology tests. Change the interface look with 15 graphic user interface skins.

Since September 11th, 2001, becoming a firefighter has never been more challenging. Knightlite Software gives firefighters the edge they need to successfully pass their certification exams. Knightlite has been a proven and trusted study partner since 1996.

System Requirements:

- * Macintosh computer capable of running MAC OS X Tiger or Leopard, or Higher
