

eWeather HD - Prepare your home for Fall and Winter

Published on 09/13/13

Elecont LLC today announces eWeather HD 2.9.5, an update to its leading weather forecast app for iOS. Using data from the NOAA, USGS, WSI, Foreca and other reputable sources, eWeather HD displays both radar and satellite images, beach water temperatures, tornado and thunderstorm weather alerts and much more. The all new eWeather HD provides access to the animated satellite images of cloud cover for the United States, Japan, Australia, Europe and Russia and shows storm propagation.

Saint-Petersburg, Russian Federation - Elecont LLC today is thrilled to announce an update to its leading weather forecast app eWeather HD for iPhone and iPad. eWeather HD puts everything you need to know to prepare for fall and winter season - in the palm of your hand: hourly prediction for the day ahead and 10-day forecasts to help you plan for future events. In addition to the already huge amount of readings and modes new eWeather HD offers animated satellite weather images for Europe, Japan, Australia and Russia for the protection of life and property.

Using data from the NOAA, USGS, WSI, Foreca and other reputable sources eWeather HD displays both radar and satellite images, beach water temperatures, tornado and thunderstorm weather alerts and much more. Version 2.9.5 introduces a slate of new features that will make your outdoors easier and safe.

New eWeather HD provides access to the animated satellite images of cloud cover for the United States, Japan, Australia, Europe and Russia and shows storm propagation. Prepare for storms, floods, and tornadoes as if you know in advance they are coming, because in the fall, they very likely will!

Autumn is a great time to get away for a final blast of sunshine. Discover your best beach vacation spots with eWeather HD ! The iPhone and iPad app provides all of the necessary information about weather and water on worlds popular beaches and resorts. Explore unique interactive map to find the best place to spend a vacation.

Some of new app features include:

- * iOS 7 compatibility
- * Animated satellite weather for Europe, Russia, Japan and Australia
- * Plan a beach vacation with perfect weather with eWeather HD. Now the app reports the water temperature at your favorite beach and at other beaches around the world: Mediterranean coastline, Seychelles, Maldives, Tahiti, Hawaii and others
- * Use animated cloud cover map and local UV Index to estimate how long you have in the sun before skin damage occurs.
- * Get a push-notifications with five new sounds whenever severe weather is coming to your location
- * Setup live Temperature on your Home Screen
- * Use eWeather HD to stay informed about changing weather conditions right in Notification Center with five new sounds
