Published on 09/17/13

AppBomber is celebrating its first anniversary and is proud of having success with promotion for most of their clients' apps over the first year of existence. AppBomber is a mobile app marketing agency that allows developers & mobile app publishers advertise their app and reach out to their prospective consumers. Success is seen from the feedback of their clients, who discovered increases in downloads after using their services and by getting some apps to the top app charts within the App Store.

London, United Kingdom - AppBomber is celebrating its first anniversary and is proud of having success with promotion for most of their clients' apps over the first year of existence. Success is seen from the feedback of their clients, who discovered increases in downloads after using their services and by getting some apps to the top app charts within the App Store.

AppBomber is a full cycle mobile app marketing agency that allows developers and mobile app publishers advertise their app and reach out to their prospective consumers. Utilizing the great network of partners, the agency provides cost-effective promotion services that increase products' visibility throughout dedicated media outlets, social networks and within the App Store.

Its team of mobile industry professionals combines several years of experience in promotion and marketing of digital application for iPhone and iPad. Deep knowledge of mobile marketplace and personalized strategy for every application allows AppBomber to deliver the best result possible.

Moreover, with AppBomber mobile app developers have an ability to generate public interest in their app before it hits the App Store by analyzing its target audience, working on keywords set, app description and getting pre-launch buzz across web-based media outlets. Thus cooperation with the agency before the app's submission to the marketplace can bring much richer results from an app development efforts.
