Klaipeda, Lithuania - Realore, developer and publisher of casual games, today announces the release of Farm UP for Mac. It's a classic farming simulator set in 1930s. Farm UP was initially created for iOS. Since its release last year, the game has accumulated a wide fanbase. Farm UP was ported to a number of other platforms, and now it finally comes to Mac. The game is now available for free download on iTunes.

The game starts when main hero Jennifer purchases a small bankrupt farm and decides to turn it into a profitable business. She starts helping local farmers and other states, making a positive impact on the country's economy.

Players will start by planting and harvesting fruit and vegetables. Quests from NPCs include developing the farm itself and helping other states. In the course of the game, Jennifer's husband and grandparents arrive. Each character performs a different task. Players will be able to build different factories to produce textile and canned goods, and also a snack bar to try different recipes. Farm UP always grows in scale with more and more characters, quests, plants, farm animals and global missions.
