Nor Eagle today announced that version 1.1 of Ben's somewhat spiffy-looking but ultimately craptastic rock-paper-scissors game is now available for download. rock-paper-scissors features rock, paper and scissors all in the same game, loads of words in the title, graphics, no annoying sound to be turned off, nice looking icon, three different play-modes, and more. The Insulting Monk, is now even more insulting.

Oslo, Norway - Nor Eagle today announced that version 1.1 of Ben's somewhat spiffy-looking but ultimately craptastic rock-paper-scissors game is now available for download.

T. Benjamin Larsen, Nor Eagle CEO, Creative Director and hand-model had this to say about the update: "We are always happy to abuse our customers. It seems the Monk's venomous tongue is the most popular feature of the game so we figured bolstering his arsenal was something our customers would appreciate."

The candid manner in which the developers have presented the game seems to have won them a few admirers: "Spiffy Looking Ultimately Craptastic = Brilliant! And we love the fact that these folks can laugh at themselves and be honest about yet another lame rock paper scissors app..." writes KRAPPS.com

"We're not in a position to make Zelda or Halo for the iPhone." said Larsen. "Starting out small and being honest about our limitations is simply the right thing to do."
