Published on 10/03/13

A new release from It's My Life, their LIFE CAREER PACKAGE 1.0 is now globally available for download on iPhone, iPod touch and iPad. The Life Career Package is a specialised, professional application designed as a guide to planning and realising career, educational goal or business plan in modern Britain. The app provides a simple and yet comprehensive guide to employment and new career goals, suitable for use by the whole family, whatever their career position or objectives.

London, United Kingdom - A new release from It's My Life (Longterm Investment for Employment); LIFE CAREER PACKAGE 1.0 is now globally available for download on iPhone, iPod touch and iPad. The Life Career Package is a specialised, professional application designed as a guide to planning and realising career, educational goal or business plan in modern Britain. The app is designed to simplify, explain and guide the user through the complex maze of qualifications, accreditations and legislation that surround pursuing a new career path in Britain.

The app provides a simple and yet comprehensive guide to employment and new career goals, suitable for use by the whole family, whatever their career position or objectives.

The app contains simple, easy-to-use colour-coded guides to industry sectors. This enables the user to research and learn more about their specific areas of interest. They may then plan a route to the position they want to reach in three clicks. The Life Career Package explains the certified systems of accreditation which govern access to certain areas of employment and the qualifications and skills needed for professional growth and achievement. It can even help you book your driving theory test or CSCS test within the Life Career Package.

The app also features an efficient, easy-to-use system which guides the user through the notoriously tricky process of becoming self-employed or setting up a business. The app features a guide on how to save money and take advantage of the support and financial assistance available to small businesses. UK entrepreneurs are set to benefit from a further GBP69 million of governmental funding over the coming year; this app ensures that those setting up an enterprise do not miss out on any of the funding to which they are entitled.

The impact of the worldwide recession on the UK jobs market means that it has never been more difficult to figure out how to achieve the career and educational goals you actually want. The Life Career Package helps to solve the problem of getting what you want from the working world, and is now available to download.
